Subject: I support my local package store owner...

Our local package store owner has asked me to email you with my concerns about the new proposed legislation, Sunday Sales / Blue Laws.

While I see nothing wrong with selling liquor on Sundays, I despise deceptive legislation.

It is my understanding that part of this proposed law would benefit the big stores and threaten our local businesspeople. I cannot tolerate this. I will not support it, and I will remember you if you vote for it.

Do not vote for this legislation. I suggest you find a more honest, open way to allow liquor sales on Sunday -- perhaps by simply writing a law that says just that, only that, and nothing else.

Charles Mitchell
